Administrative Operating Company Number (AOCN) Service Listing**

## AOCN Service Listing

This list represents companies that have access to update Telecom Routing Administration (TRA) Business Input Routing and Rating Database System (BIRRDs). These companies indicated that they are willing to provide a data input service to other companies through a business agreement, and can thus provide services as the Administrative Operating Company Number (AOCN) for those who require the service (TRA is not involved in arranging such agreements). Please note that the extent of services provided, associated costs, procedures, etc. will vary by AOCN.

Appearance of an AOCN Company on this list is at its request and does not constitute any TRA approval or other judgments relative to the quality, extent, costs, etc. of the service provided. AOCN Companies are listed alphabetically, by company name. Coverage refers to the geographic extent within which the AOCN Company has indicated they will provide this service. The following indicators are used:

<b>Coverage Area</b>	<b>Coverage Code</b>
The entire North American Numbering Plan (NANP) area (i.e., all that follow below)	NANP
US – 50 states only	US
US Territories – Commonwealth of the Northern Mariana Islands, Guam, Puerto Rico, US Virgin Islands, American Samoa	UST
Caribbean area – the 16 non-US NANP countries in the Caribbean, as well as Bermuda	CARIB
Canada – all provinces	CANADA
Exceptions – if coverage is limited to certain states, provinces, or territories, or if other need exists to delineate specific areas, specific state, province, or territory codes would be used.	Standard Codes

The option also exists for a given company to serve as its own AOCN (i.e. directly perform its own data entry). For further information on this option, please contact the TRA Customer Care Center on 866-NPA-NXXS (i.e. 866-672-6997) or 732-699-6700 or [TRA@iconectiv.com](mailto:TRA@iconectiv.com).
